SUMMARY

An avid developer on a perpetual journey to explore the vast horizons of technology, from crafting seamless user experiences to architecting robust back-end solutions. Fueled by an insatiable curiosity and embracing each obstacle as an opportunity for growth.

SKILLS

Languages: HTML, CSS, Javascript, Typescript, Python

Technologies: React, Nextjs, Nodejs, Expressjs, Redis, MongoDB, Firebase, GraphQL, Git, Github

PROJECTS

MERN Stack

Flight ticket booking web app

[github link](#)

Elevate your travel experience with our user-friendly Flight Ticket Booking App. Real-time data and intuitive booking make it hassle-free, while easy payment options ensure a smooth booking experience.

-Frontend - React, React-bootstrap, Redux-toolkit, React-router-dom, Razorpay.

-Backend - Nodejs, Expressjs, Mongoose, cookie-parser, Jsonwebtoken , Bcrypt, Fakerjs.

-Key Features and Learning growth

1. Implemented a **dynamic seat selection** feature using react components to create an interactive interface where users can view seat layouts, select individual seats, and visualize their chosen seats in real-time. **2.** Integrated **Razorpay** API to enable secure and efficient payment processing, allowing users to complete bookings with ease and confidence. **3.** Leveraged **Faker.js** to dynamically generate mock data upon server start, enhancing the application's realism and providing users with a more immersive booking experience.

MERN Stack

RealTime WebChatApp

[github.com link](#)

Connect instantly with friends, colleagues, or loved ones with seamless messaging powered by Socket.IO. Experience the thrill of real-time communication in a user-friendly interface designed to keep conversations flowing effortlessly.

-Frontend - React, Styled-components, React-router-dom, Zustand, Socketio-client.

-Backend - Nodejs, Expressjs, Mongoose, cookie-parser, Jsonwebtoken , Bcrypt, Socketio.

-Key Features and Learning growth

1. Users can engage in instant conversations with the implementation of **Socket.IO** for both the client and server, ensuring fast and reliable message delivery and enhancing user experience. **2.** Utilized **Zustand** state management for efficient state handling in smaller projects, offering simplicity and ease of use compared to the powerful but complex Redux tool. Zustand's minimalist approach simplifies immutability by allowing direct state mutation, integrating seamlessly with React's hooks for optimal performance.

EDUCATION

Jan/2024

Ethereum Blockchain Developer

Alchemy University

Enrolled, part time program for learning blockchain development

Feb/2023

Jun/2023

-Professional Certificate - Zen Class Full Stack Developer Program

GUVI Geek Networks, IITM Research Park

Acquired a comprehensive skill set in both front-end and back-end development.

Jan/2023

May/2023

-Certificate - The Complete JavaScript Course 2024: From Zero to Expert!

Udemy

Learned fundamental concepts and acquired practical experience by building real-world projects.

Aug/2013

May/2017

-Bachelor of Engineering - BE. Mechatronics

Nehru Institute of Engineering and Technology

Achievements - 7.98, Runner-up in Badminton doubles, Event Coordinator - Intercollegiate Cultural Fest.

Courses - CISCO Network Device Administration (**CCNA**), Robotics Programming and Applications

EXPERIENCE

Dec/2017

May/2023

-Intrapreneur

Anees Gunny Merchant

- Developed a versatile skill set, including **strategic thinking**, **team coordination**, and dynamic **problem-solving**, during intrapreneurial tenure.
- Played a pivotal role in the company's success by implementing **innovative solutions**, **optimizing processes**, and **fostering collaboration**, leading to improved operational efficiency and business growth.
